

IIC voltage-level translator:

Option 1: T1\_PCA9306DQER, if there are pull-up resistors on the OLDI LCD, must install U31.

As there are 10K pull-up on the OLDI LCD, so install U31 default.

Option 2: T1\_TCA9801DGKR, if there are no pull-up resistors or current source on the OLDI LCD, can install U7.
